# PURE BUBBLE BABY PLAY MAT

Bubble Baby Play Mat provides a high degree of density and elasticity, as key factor for toddlers and children, to look after your children's safety

Little Elephants

Monkey Friends

Happy Whale

Little Owls

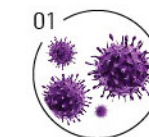

Cotton Owl

Little terrier

Bubble Baby Play Mat takes pride in the durability of its PVC fabric and bubbles as the interior materials. Bubble Baby Play Mat provides your children with a high degree of elasticity, as clouds wrap your baby, so that the children run and jump on it in safety and in freedom. Made by Parklon, Bubble Baby Play Mat with pretty characters and modern colors shows a high degree of completion for adults as well as children.

### No 6 major phthalates, No 20 major heavy metals

Parklon has been producing baby play mats toddlers and children pursuant to the more stringent European regulations on toys since related domestic regulations were provided. Everyone can use our products in safety.

### Triple fabric structure optimized for baby play mats

Optimized for a baby play mat by employing external PVC fabric that promotes durability, restoration and skin contact, and internal high density cushions that absorb impacts and relieve interfloor noises.

### Differentiated 40 mm cushions for baby play mat

Other manufactures' 40 mm foldable play mats are made of rather firm materials resulting in a thicker step that may interrupt children's free moves. Our Bubble Baby Play Mat is soft and flexible so that children step on without inconvenience.

Both sides designed with patterns for a high applicability

Water-repellent, waterproof-coated

Significantly thick & light

| MAT SIZE.                                    | WEIGHT.         |

Materials: PVC / PU form

# PURE SPACE FOLDER MAT

We manufacture Space Folder Mat using Non-blowing agent extrusion technique to exclude chemical inks and blowing agents from the PU-coat fold on the mat surface that contacts to the children's skin.

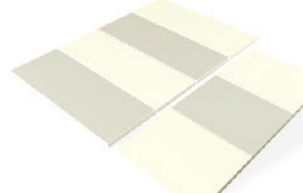

Pure Vanilla Pink

Pure Vanilla Mint

Pure Vanilla Pinkgray

Pure Vanilla Gray

01

### Pure PU coating without blowing agents and chemical dyes

Exterior fabric that directly contacts to the children's skin uses is a PU-coated layer with neither chemical inks nor blowing agents.

02

### PE foam interior without using blowing agents

Gas was used, instead of blowing agents that are typically used in PE, in preparing the interior materials for our Pure Space Folder Mat to significantly reduce chemicals.

03

### Registered patent for Eco-Friendly Play Mat!

Parklon mats for toddlers and children are safe because we have reduced TVOCs in our play mats even before related laws and regulations were provided after the TVOC issue rised.
